Experience

Freelance Frontend Developer   Oct 2024 - Current
Self Employed

- Delivered professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises.
- Improved website performance by compressing caching and lazy loading images and components.
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world.

Frontend Developer Internship | Certificate   Jun 2024 – Nov 2024
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Service Notification Specialist at Microsoft   Apr 2019 – Oct 2021
Design It

- Provide editorial analysis and content updates of proposed stakeholder content and created HTML Emails.
- Triage incoming notification and retirement requests
- Provide editorial analysis and content updates of proposed stakeholder content.
- Involved in intake and triage process documentation and workflow management.

Projects

Ultraverse Intern Project | Website | GitHub
- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.

Library | Website | GitHub
- Transitioned a vanilla JavaScript project into a React App and made everything dynamic. Able to add a checkout page to mimic a real store front. Used React Router for this project and included a skeleton loading state.

Spotlight | Website | GitHub
- Integrated OMDB API to create a search engine to find Movies and Shows
